

## VALUE PROPOSITION

- DYKEM® Cross Check™ three-dimensional, fluorescing marks for indication of torqued parts were accurate and easy to read
- Competitor's markers did not produce a clear mark and gave false indication of movement

### PRODUCT

**Cross Check™ Torque Seal®**  
Tamper-Proof Indicator Paste

### BOTTOM LINE

**Torque check**  
*Automotive Manufacturing: Metal Parts*

### APPLICATION

- Marking of engine parts: primarily mounts, screws, bolts, etc.
- Multiple colors schemes required

### ISSUE

- Two-dimensional, flat marks made by competitive paint markers were difficult to see and were not representative of torque integrity, resulting in many false positives due to orientation

### SOLUTION

- DYKEM® Cross Check™

### RESULT

- Cross Check™ three-dimensional, fluorescing marks were easy to see and indicated true torque integrity
