**CASE STUDY**

**VALUE PROPOSITION**

- **Safety Improvements:**
  LPS® Instant Super Degreaser 2.0 eliminated safety concerns with non-flammable formula and absence of noxious odors

- **Enhanced Performance:**
  The solvent effectively cleaned oils from surfaces, allowing proper adhesion of company decals onto finished shocks. Its fast-evaporating characteristic additionally sped production turnaround

- **Cost Savings:**
  LPS® Instant Super Degreaser 2.0 reduced scrap levels, product usage, and customer returns, saving an estimated $25,000 – $50,000 per year

**PRODUCT**

LPS® Instant Super Degreaser 2.0

**BOTTOM LINE**

Enhanced Performance, Safety, and Cost Savings

**APPLICATION**

- Removal of form oils, metalworking oils, and other test oils from performance shocks during and after production

**ISSUE**

- Competitive solvent product was flammable and left noticeable amounts of residue behind, making decal adhesion difficult. Moreover, the residual oil left on the shocks led to product returns. The customer requested a fast-evaporating, low odor, and non-flammable bulk degreaser that left surfaces free of residue.

**SOLUTION**

- LPS® Instant Super Degreaser 2.0

**RESULT**

- The fast-evaporating solvent in LPS® Instant Super Degreaser 2.0 enhanced production and efficiently cleaned metal cutting oils, form oils, and test oils. This ensured a clean surface for applying company decals, preventing costly customer returns. Bulk liquid (drum) availability contributed to economic efficiency and safety concerns were eliminated with the non-flammable formula and absence of noxious odors. Ultimately, LPS® Instant Super Degreaser 2.0 reduced scrap levels, product usage, and customer returns, resulting in estimated annual savings of $25,000–$50,000.
