Wipe surface with wipe. Let air dry. Discard used wipe in trash. Do not flush in toilet.

TO CLEAN AND DISINFECT/VIRUCIDAL*/MOLD AND MILDEW CONTROL DIRECTIONS:

Wipe hard, non-porous surface with wipe until surface is visibly wet. Use enough wipes to keep surfaces wet for 4 minutes. Allow surface to remain wet for 4 minutes. For Candida albicans, treated surfaces must remain wet for 8 minutes. For Norwalk Virus and Rotavirus, treated surfaces must remain wet for 10 minutes. Let air dry. If surfaces are extremely dirty, clean first with another wipe before disinfecting. Discard used wipe in trash. Do not flush in toilet.

Rinse food contact surfaces with clean, potable water after disinfecting. Do not use to disinfect dishes, glassware or utensils.

For mold and mildew, SCRUBS MEDAPHENE PLUS DISINFECTING WIPES will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces. Follow disinfection instructions. Repeat treatment every seven days, or more often if new growth appears.
