

THE END.™

Wasp & Hornet Killer

FEATURES

- Instant Knockdown
- Sprays up to 20 feet
- Dielectric breakdown voltage of 40,700 volts
- Kills wasps, hornets, yellow jackets, and bees
- Kills nest and insects with residual action

APPLICATIONS

- Attics
- Eaves
- Screens
- Window Frames
- Crevices
- Doors
- Patios
- Cracks
- Holes

PROPERTIES

Appearance/physical state	Liquid/Aerosol
Odor	Nearly Odorless
Melting point/freezing point	Undetermined
Boiling point/range	221°C (430°F)
Vapor pressure	80 - 100 psig @ 21°C (70°F)
Partition coefficient	Not determined
Flammability (solid, gaseous)	Not applicable
Propellant	Carbon Dioxide
VOC Content	0%
Color	Colorless
Flash point	82°C (180°F)
Relative density	Not determined
pH @ 20°C (68°F)	Not applicable
Vapor density	> 1 (Air=1)
Auto-ignition temperature	Not determined
Viscosity	Not determined
Density @ 20°C (68°F)	0.779 - 0.799 g/cm (6.501 - 6.668 lbs/gal)

AVAILABLE PRODUCTS

Part No.	Net Contents	Container Type	Units/Case	Case Weight
18320	12 oz. (340 g.)	aerosol	12	13 lbs.

THE END.™

Wasp & Hornet Killer

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For best results, spray in early morning or late evening when insect activity is minimal. Stand a safe distance from nest and not directly underneath. Hold can upright and point spray opening toward nest with wind at your back. Spray until nest is thoroughly saturated to kill the entire nest population. Residual action will kill wasps and hornets returning to the nest. Wait at least 24 hours before removing the nest. To kill wasps, hornets, yellow jackets and bees under eaves, screens, window frames, doors, patios, cracks, holes or crevices wherever insects are noticed, spray about 1 - 2 seconds or until surfaces are moist. To prevent entrance of insects into the house, spray around points where insects enter such as outside plumbing, faucets, etc., and cracks or crevices in foundation as well as along sills and ledges. Do not use in commercial food/feed handling establishments, restaurants or other sites where food/feed is commercially prepared or processed. Not for use in Federally inspected meat and poultry plants. Do not apply to pets or contaminate feed, foodstuffs, dishes or utensils. Avoid spraying vegetation directly. Restrictions: Do not allow adults, children, or pets to enter the treated area until sprays have dried. Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift. Remove pets, birds, and cover fish aquariums before spraying. Do not make application during rain. Do not apply when food is present. Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use. Do not water the treated area to the point of run-off. Not for broadcast in indoor residential surfaces. All outdoor application must be limited to spot or crack-and-crevice treatments only. Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications only. Do not use around or near floor drains or in drains or sewers.

PRECAUTIONARY STATEMENTS

CAUTION. Hazards to Humans and Domestic Animals. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or going to the toilet. Remove contaminated clothing and wash clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. IF IN EYES: FIRST AID Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-858-7378 for emergency medical treatment information. NOTE TO PHYSICIAN Contains petroleum distillate - vomiting may cause aspiration pneumonia. ENVIRONMENTAL HAZARDS This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to or near water. Drift and run-off may be hazardous to fish in water adjacent to treated areas. Do not contaminate water when disposing of equipment, washwater, or rinsate. This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are visiting the treatment area except as explicitly stated on this label. See Directions for Use for additional precautions and requirements. PHYSICAL OR CHEMICAL HAZARDS Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

STORAGE AND DISPOSAL

"Do not contaminate water, food or feed by storage or disposal. Store in a cool dry
